

Making a difference in a child's life . . .

# Current Affairs . . .

Russia-backed separatists continue to control areas in the Donetsk and Luhansk Oblasts. Despite the signing of a ceasefire agreement by representatives of Ukraine, Russia and the OSCE, violent clashes between combined Russian separatist forces and Ukrainian forces continue in parts of the eastern regions of Donetsk and Luhansk, resulting in thousands of injuries and deaths.

The ceasefire agreement established a de facto dividing line between Ukrainian government-controlled and separatist-held areas of Ukraine.

Pastor Leonid's daughter, Lilya, writes:

*The Russian Gas Company raised prices for UK and made our life miserable by that. Gas for next winter will be 7.5 times more than it was last winter. It means that if we payed, 9000 grivna last winter when it was very cold, we will pay 67,500 this winter.\* We don't have that kind of money. Papa writes letters to the government but we don't know their answer. Many people will not be able to pay their bills. We hope that the government will do something with the prices for us. If not, we search for alternative. Papa found a company that makes boilers that use coal. It costs about 45,000 grivna plus installation. This is the only way out that we see now. This spring we had our gas on minimum. Because of the cold, small children slept in coifes (hats). It was cold for them and they were sick all the time. (cough, running nose, etc.) We hope that everything will be ok.*

One Dollar = 21.24 Grivnas - Price of Gas was \$423.72 and will increase to \$3,177.96
