

Making a difference in a child's life . . .

At Christmas time, Nichole, a 13 year old girl from Poulsbo, wrapped individual hygiene packages for the children at the Orphanage. Below, are some pictures along with a letter from Lilya about what blessings those packs afforded.

A week ago, we received Nichole's packages. As you may know from the news last week, the war in Ukraine started again. A few weeks ago, people from our church visited the church in the city of Avdeevka. We ministered to them because they do not have a Pastor. He moved with his family when the war started in 2014.

This week we were going to go their again but the war started and some people from Avdeevka asked us to take them in with their families at the AO (Awakening Orphanage). We expect more refugees from Avdeevka church to come and live here at the AO. Now we have 13 people. Their stories are very sad. We gave some of Nichole's gifts to them too because they had need of these things. Her box came to us at the proper time. These people took only warm clothes and documents from their homes - that's all. They are very grateful to Nichole for these gifts because when they run away from their homes they didn't think about hygiene items. Now they have them.

We all thank this child of God who became an answer for the needs of our refugees and our children!

Lilya
