*Making a difference in
a child's life ...*

I'm Leonid Kotjolkin. I go to the 4th grade already. My favorite subjects are drawing and physical education. All other subjects are hard for me, but I try to learn them too. I'm very grateful to you that you do not forget us and you send us parcels. We pray for you and we thank God that we have such a friend and sponsor as you.

Letters from the Kids:

My name is Vova. I'm 13 years old and I go to the 6th Grade. I have a good life, Thank you very much that you are taking care of all of us. I'm fond of soccer and I go to the gym. I have a lot of good friends. Soon we will start to plant potatoes and I don't like that time, because from morning till night we will be busy with them. Pastor Leonid bought for us garden houses and in the summer we will relax there. From my brother, I learned how to cook shish kabab. Here at the orphanage, we have very kind ladies who care for us and we all love our cook, Aunt Nona. Her food is very delicious. Also, we all love our Pastor Leonid. We pray for his health and longevity. Every time when we come to him, he has something to give us (candies, sweets, cookies). This winter was very cold but we praise God that in our rooms it was warm. We thank you for that too, because you support us.

Happy Easter
