Making a difference in
a child's life . . .

A Letter from Andrei

This is Zhitnik, Andrei writes to you. I study in a specialized school and I'll get a profession as a gypsum plasterer and plumber. I'll have to study here for 2 1/2 years more. I like the profession.

Today the weather is beautiful. The snow disappeared and two days we have warm sunny weather. I thank you for your prayers about us and for your support.

Soon we will start to work in the garden. We will need to clean trees from bad branches and to plant potatoes. Many farmers who have big piece of land like ours have special moto-blocks and they do all the work twice faster than we. We pray for moto-blocks. If you have opportunity to help us to buy them, we all will be very grateful to you. We also continue to pray about you, your health and your business. May God keep you. **Andrei**
