in a child's life . . .*

## A LETTER FROM SASHA

*Hello,*

*My name is Sasha. I'm 16 years old and I'm studying the 1st course of lyceum. My profession will be underground electrician. I'm very fond of sports. I like speed, that's why I like to ride bicycles and also I like to run. When we have spare time, we play table tennis with my friends, using the tennis table (ping pong) you bought for us. Thank you so much for that.*

*Not long ago we planted potatoes, garlic, and onions in the garden. My favorite subject is geometry, although there are periods when geometry doesn't want to go in my head. I dislike physics because I missed it from the very beginning and now I'm far from understanding it.*

*I thank you so much for your monthly support.  
MAY GOD BLESS YOU.*

*Sasha Koroljov*
